**Simple, Study Construction** - The HeRO Dual-Angle Broom Head is a simple yet durable tool. With a typical broom, dust, dirt, and other contaminants enter the bristle housing leaving residue behind. Thanks to its solid block construction, the HeRO Dual-Angle Broom Head never stores residue. This ensures that the job is done correctly the first time.

**Dual-Angle Sweep** - This broom utilizes a dual-angle design that allows users to sweep at 65 or 90 degrees.
